1. Summary of Qualifications

1.1 Education

- **Master of Science in Data Engineering & Information Management**,
NED University of Engineering and Technology, Karachi, Pakistan
3.72 on a scale of 4.00 | Oct 2019 – Nov 2021
Courses: Data Analytics, Data Warehousing, Data Security and Audit, Business Intelligence, Distributed Systems, Information Systems Management, Data Encryption, Statistics & Probability for Data Science
- **Bachelor of Engineering in Telecommunications Engineering**,
Iqra University, Karachi, Pakistan
3.27 on a scale of 4.00 | Dec 2011 – Dec 2015
Courses: Electronics, Digital Communications, Computer Networks, Telecom Switching & Routing, Filter Design, Mobile and Wireless Communications, Optical Fiber Communications, Antenna Theory.

1.2 Employment History

- **Adjunct Lecturer**, NED University of Engineering & Technology (Jan 2023 – Present)
- **Associate Strategy Consultant**, Zaylan Associates (Jan 2020 – Present)
- **Value Engineer**, Motive (formerly KeepTruckin), San Francisco (Nov 2023 – Jun 2025)
- **Agile Project Manager**, Blazeo (formerly ApexChat), San Francisco (Nov 2020 – Nov 2023)
- **Visiting Faculty**, Institute of Cost and Management Accountants of Pakistan (Jul 2020 – Jun 2021)
- **Lead Business Analyst**, VentureForce Global, Karachi (Sep 2019 – Sep 2020)
- **Project Manager**, DgTx, Dubai, UAE (Sep 2018 – Sep 2019)

1.3 Other Relevant Experience

- Freelance Consulting, Enterprise RP systems implementation, Business Process Management, and Industry Consulting across Life Sciences, Energy, Engineering, Retail, Education and Food Commodities.
 - Implementing and overseeing operations for HIPAA compliance for US-based services company.
-

2. Research Experience

2.1 Research Work

- Developed data frameworks and analytics tools for Fortune 500 firms (e.g. The Cube, TAM estimations, genomics projects)
- Master's coursework in data analytics, PowerBI, Python, and statistical modeling
- Undergraduate research work in implementing low-power Cryptographic algorithm on Field Programmable Gate Arrays using Verilog (HDL).
- Completed several freelance secondary research projects in Engineering, Data Analysis, Machine Learning, Artificial Intelligence
- Always learning new models and methods in ML/AI as a hobbyist.

2.2 Projects

- Led value engineering / intensive data analytics projects contributing to \$3.5M in closed deals at Motive
- Delivered strategic consulting outputs for Zaylan clients across four continents (TAM, TCO, ROI, Company profiling, Divestiture)
- As a hobbyist, I have been developing multiple projects that bridge the gap between ML/AI and financial markets forecasting:
 - Using ML/AI to build forecasts for capital markets (stocks & crypto)
 - Implemented technical analysis of different asset classes using Python
 - Developed prototypes for time-series environmental data (e-waste) forecast with pipelines built for ingesting known data to predict future data.

2.3 Academic Contributions

- Adjunct Postgraduate Lecturer at department of Computer and Information Systems Engineering at NED University Pakistan. Developed curriculum and learning material for the two courses I teach at the department.
 - Course developer and trainer for CPD diploma programs at Institute of Cost and Management Accountants of Pakistan.
-

3. Teaching Expertise

3.1 Teaching Philosophy

- Committed to bridging academic theory and practical industry application, emphasizing hands-on business systems and real-world case studies

3.2 Experience

- **Enterprise Resource Planning (CS-570)**, NED University – Spring 2023, 2024, 2025
 - **Business Intelligence (CS-563)**, NED University – Fall 2023, 2024
 - **CPD Diploma Courses**, ICMAP – ERP, BPM, PM, and IT modules (H2-2020, H1-2021)
-

4. Technical & Professional Skills

- **Project Tools:** JIRA, Asana, MS Project, Trello
- **Data Tools:** Power BI, Excel, SQL, Minitab, R, Python (fundamental understanding of NumPy, Pandas, Scikitlearn, PyTorch, TensorFlow, Keras, OpenCV, etc.)
- **ERP Platforms:** ERPNext (v15), Odoo, Custom Open-Source Systems
- **Methodologies:** Agile, Scrum, Waterfall, Value Engineering, BPMN, UML
- **Standards:** ITIL, ISO, HIPAA Compliance
- **Languages:** English (Fluent), Urdu (Native), Hindi (Professional)
