Summary

A graduate in Software Engineering with a Bachelor's degree and a Master's degree in Cybersecurity. Possesses a strong foundation in software development and a comprehensive understanding of the software development life cycle. Proficient in various programming languages, including Java, Python, JavaScript. Skilled in problem-solving, critical thinking, project management, and technical support. Committed to advancing knowledge in cybersecurity and fostering positive academic and professional relationships.

Skill Highlights

- Teaching Skills**
 - Course Instruction
 - Curriculum Development
 - Classroom Management
 - Effective Communication
 - Collaboration and Teamwork
- Technical Skills**
 - Programming Languages: Java, Python, JavaScript
 - Database Management and Web Development
 - Penetration Testing
 - Risk Assessment and Vulnerability Analysis
 - Operating Systems: Windows, Kali Linux, Linux
- Soft Skills**
 - Problem Solving and Critical Thinking
 - Patience and Empathy
 - Strong Work Ethic
 - Adaptability
 - Time Management

Education

- Master of Science in Cybersecurity - Summer 2024**
New York University, New York
- Bachelor of Science in Software Engineering - Spring 2017**
AlHosn University, Abu Dhabi, UAE

Experience

Computer Lab Supervisor - Al Ain University - November 2019 to Present

- Courses Taught:
 - Introduction to Java Programming
 - Object-Oriented Programming
 - Introduction to Data Structures and Algorithms
 - Web Development
 - Software Measurements and Testing (JUnit & Selenium)
- Responsibilities:
 - Led weekly lab sessions, providing guidance to students.
 - Conducted weekly office hours for student assistance with homework, labs, and course concepts.
 - Updated lab assignments and projects on a regular basis.
 - Managed the grading process for labs, homework, projects, and exams.
- Additional Activities:
 - Delivering sessions on python programming, mobile development, and database management.
 - Organizing events and competitions.
 - Training people of determination by teaching them essential computer skills

IT Support - Al Ain University

- Responsibilities:
 - Provided technical support and guidance to students during online exams to ensure a smooth examination experience.

Publication

- Al-Nashash, E. J., & Olmsted, A. (2023). Enhancing IoT Security using Blockchain-Based Access Control Mechanisms and Database Management. In Proceedings of the International Conference for Internet Technology and Secured Transactions (ICITST-2023), St Anne's College, Oxford University, UK, 13-15 November 2023. DOI: 10.20533/ICITST.2023.0021. ISBN: 978-1-913572-63-1.

Projects

- **Performance Analysis of Supervised Machine Learning Classifiers in Phishing Website Detection**
Conducted a comparative analysis of five supervised machine-learning classifiers to detect phishing websites. The project focused on evaluating the accuracy, precision, and recall of models, including Decision Tree and Artificial Neural Network.
