CAREER OBJECTIVE

With over 25 years of professional experience, including extensive work in cybersecurity, and an MBA complemented by advanced certifications (OSCP, PNPT, CRTP), I bring hands-on expertise in penetration testing and OSINT investigations. My career progression, from leading defense projects to consulting on complex security challenges, demonstrates the practical expertise and research-driven mindset required for doctoral study. I aim to advance research in cybersecurity, offensive security techniques, and cyber defense methodologies, bridging applied experience with academic innovation in computer science.

WORK EXPERIENCE

Cybersecurity Consultant
CPX Holding – Abu Dhabi, UAE

July 2023 – Present

- Consistently identified and exploited vulnerabilities in complex network infrastructures, enhancing overall security posture.
- Provided actionable insights and recommendations to diverse clientele, resulting in significant improvements in their cyber defense strategies and resilience against potential threats.

Defense Hacker & Project Lead Internship
Excelerate – Dubai, UAE

June 2023 – July 2023

- Successfully led a Cybersecurity project, overseeing task completion and providing necessary support to the team throughout the assignment.
- Ensured the creation and maintenance of high-quality deliverables while adhering to strict deadlines, implementing robust information security controls to safeguard project assets.

Penetration Tester & OSINT Investigator
Forward Defense – Dubai, UAE

December 2022 - February 2023

- Collaborated effectively with various Cybersecurity teams to conduct comprehensive and various engagements for diverse global clients.
- Proficiently gathered, sorted, scanned, and compiled open-source intelligence (OSINT) data, providing valuable insights to support decision-making and enhance security strategies.

Penetration Tester
Freelance – Dubai, UAE

March 2022 - December 2022

- Delivered high-quality penetration testing services on a contractual basis while assisting senior penetration testers in identifying and exploiting vulnerabilities across diverse client environments.
