About Me

MCA graduate from Aligarh Muslim University with expertise in AI, ML, and web development. With a foundation in physics and computing, I have developed AI systems that simplify legal, linguistic, and social domains. Highly motivated, detail-oriented, and skilled in applying statistical, deep learning, and web technologies to practical problems.

Education

Degree	Institute	Percentage / CGPA	Duration
Master of Computer Science and Application (MCA)	Aligarh Muslim University	8.833 CGPA	2023–2025
B.Sc. (Hons) Physics	Aligarh Muslim University	8.271 CGPA	2019–2022
Intermediate (CBSE)	Udaya Public School, Faizabad	76.6%	2018–2019
High School (CBSE)	Udaya Public School, Faizabad	9.8 CGPA	2016–2017

Projects

CLARA – An AI Powered Legal Assistant Utilizing LLMs

An AI-powered legal assistant trained on Indian Criminal Laws, fine-tuned on BNS, BNSS, and BSA using Mistral-7B from Hugging Face. It handles statute-based queries and PDFs, providing explainable, contextual, and reliable outputs via an interactive user interface built using Gradio on Google Colab.

AMU Ventures – Web Application Platform

A web application aimed at providing a platform where people with business/start-up ideas can post their ideas and people interested in those ideas can offer support or collaborate. Designed a web platform enabling users to post, explore, and support business ideas, fostering collaboration and entrepreneurship. Features include idea submission, user profiles, and interaction mechanisms for engagement. Built using HTML, CSS and PHP.

Car Price Prediction

Implemented a regression model using Python to predict car prices based on features like year, kms driven, fuel type, and ownership. Used Linear Regression and Random Forest for optimal accuracy. Entire pipeline executed on Google Colab.

Publications

Gulfarogh Azam, **Mohd Sadique**, Saif Ali, Mohammad Nadeem, Erik Cambria, Shahab Saquib Sohail, Mohammad Sultan Alam, “*Beyond Specialization: Benchmarking LLMs for Transliteration of Indian Languages*”, arXiv:2505.19851, currently under review in **IEEE Transactions on Emerging Topics in Computational Intelligence**.

Skills

Languages: Python (NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch), Java, SQL

AI/ML: Machine Learning, Deep Learning, NLP, LLMs, Transformers, Fine-tuning, RAG, Ollama, Hugging Face, Google Colab

Web Development: HTML, CSS, JavaScript, PHP

Concepts: DSA, OOP, Probability, Statistics, OS, Networking

Soft Skills: Critical Thinking, Teamwork, Communication, Mentoring

Achievements & Certifications

UGC-NET (Dec 2024): Qualified in Computer Science and Application for PhD Admission and the role of Assistant Professor (Lectureship) with 96.95 Percentile.

Certifications:

-Machine Learning with Python - A Massachusetts Institute of Technology (MITx) Certification course of Machine Learning on edX.

-LLM Engineering: Master AI, Large Language Models Agents - LLM Engineering Certification Course by Ligency Team, Ed Donner on Udemy. (Currently Enrolled)

Extracurriculars

Leadership: Co-President, Science Club – Udaya Public School

Volunteering: Events at AMU and school; private tutoring
