

FAIZAN AHAMAD

Passport: W7643973 | **Date of birth:** 15/07/2000 | **Place of birth:** Aligarh, India | **Nationality:** Indian |
Gender: Male | **Phone number:** (+91) 8194004957 (Mobile) | **Email address:**
ahamadfaizan.amu@gmail.com | **Address:** 4/1152 Sir Syed Nagar , 202001, Aligarh, India (Home)

ABOUT ME

Motivated cybersecurity researcher with an MSc in Cyber Security & Digital Forensics and a strong foundation in cryptography, IoT security, and network protocols. Experienced in conducting research on secure communication protocols, lightweight cryptography, and threat detection. Eager to contribute to cutting-edge research in post-quantum cryptography and next-generation secure internet infrastructure under expert supervision.

EDUCATION

2022 – 2024
Masters of science in Cyber Security & Digital Forensics

Aligarh Muslim University, Aligarh | CGPA: 8.417/10

HONOURS AND AWARDS

University Merit Financial Award, AMU (Academic Excellence during MSc)

- **2nd Prize** District-Level Essay Competition (During Bachelor's)
- **3rd Prize** Slogan Competition (During Bachelor's)

RESEARCH INTERESTS

Lightweight & Hybrid Cryptographic Algorithms for IoT Devices

- Post-Quantum Cryptography (PQC) and Quantum-Resistant Network Protocols
- Secure IoT Frameworks and Cyber-Physical Systems Security
- AI/ML-Driven Threat Detection and Predictive Cybersecurity
- DNS-based Threat Detection and Network Security Analytics
- Privacy-Preserving Cryptography & Homomorphic Encryption

PUBLICATIONS & PROJECT

Secured IoT Model for Monitoring Smart Field Data through Real-Time Cloud Integration Utilizing Lightweight Cryptography

Link <https://www.journal.esrgroups.org/jes/article/view/6361>

Lightweight Cryptography: Integrating Feedback DNA with the AES Algorithm for Enhanced Security

Link https://link.springer.com/chapter/10.1007/978-981-97-9132-3_26

Cryptographic Algorithm for Security of sensor data Communication in IOT Application

Link <https://ieeexplore.ieee.org/document/10947897>

Fast Flux Domain Detection Using DNS Traffic

Link <https://mail.ijritcc.org/index.php/ijritcc/article/view/10577>

TECHNICAL SKILLS

Cryptography: AES, ECC, Homomorphic Encryption, Lightweight Cryptography

- **Security Tools:** Kali Linux, Nmap, Metasploit, FTK Imager, Autopsy
- **Programming Languages:** Python, C
- **Platforms & Concepts:** Digital Forensics, Network Security, IoT Security
- **Productivity Tools:** Microsoft Office Suite (Word, Excel, PowerPoint)

● **CERTIFICATION**

Certification & Workshop

- Google Cybersecurity Professional Certificate (Network Security, Threat Detection, Linux, Python for Security Automation)
- EC-Council: Digital Forensics Essentials
- 7-Day Workshop on Cyber Security: Pentesting Methodology (*Computer Science Department AMU*)
- Advanced Diploma in Computer Applications (ADCA) [2016 – 2017]

● **INTERNSHIP**

Competitive Programming Internship – AMU [March – May 2023]

● **EXTRACURRICULUM ACTIVITY**

NCC (National Cadet Corps) 'C' Certificate – Senior Division

NSS (National Service Scheme) Certified Volunteer

● **LANGUAGE**

English, Hindi, Urdu
