EDUCATION

Khalifa University of Science and Technology

Master of Science in Computer Science (Focus on Artificial Intelligence, Natural Language Processing)
Abu Dhabi, UAE | 2022 – 2025

- GPA: 3.77
- Technical Lead: Machine Learning Course Project & Paper: [SDXL Finetuned with LoRA for Coloring Therapy: Generating Graphic Templates Inspired by United Arab Emirates Culture](#)
- Technical Lead: Software Engineering Project: Multiagent LLM's for Requirement Engineering (Achieved Grade of A in Course) (Under consideration in IEEE Access)
- Master's Thesis: Natural Language Processing (Large Language Models) and Multi-Agent LLM Frameworks (AI) "MathMajlis: Enhancing Accuracy Using Classifier-Based Multi-Agent Debate" (Under consideration in IEEE Transactions in Artificial Intelligence)
- Achieved IELTS 8.0 and GRE scores: 161 in Verbal and Quantitative Reasoning, 5.0 in Analytical Writing.
- Project Management Professional (PMP) Certified (PMP® Number: 3790399)
- Relevant courses: Machine Learning, Numerical Methods, Software Engineering, Data Science

Khalifa University of Science and Technology

Bachelor of Science in Electrical and Electronic Engineering
Abu Dhabi, UAE | 2012 – 2017

- Qualified twice for the Dean's List and once for the President's List.

EXPERIENCE

AI Work

Self-Initiated Projects and Research
2022 - Present

- Architectural Design: Developed AI architectural frameworks, ensuring alignment with technical requirements and business goals.
- Technical Leadership: Provided mentorship in AI development best practices.
- Research and Innovation: Worked in cutting-edge AI solutions (Multi-agent LLM's).
- Project Management: Lead in AI work.
- Collaboration: Worked with cross-functional teams to define AI project requirements.
- Implemented AI in personal business endeavours in a novel manner.

Engineer (Protection & Control), Taqa Transmission

Abu Dhabi, UAE | 2021 - Present

- Leading an AI automation project for the Department (Shutdown LLM Scheduler).
- Commissioned substation computer control systems.
- Implemented modern health and safety procedures.
- Managed consultants and contractors to ensure project completion.

Substation Control Systems (SCMS) Engineer, TRANSCO

Abu Dhabi, UAE | 2018 - 2021

- Maintained SCMS systems in Abu Dhabi substations.
- Addressed real-world issues with computer control systems.
- Participated in the tendering process for new computer systems.

UAE Military Service

2019 - 2020

- Completed basic military training.
- Gained experience in UAE Military computer systems.

SKILLS OVERVIEW

- Proficient in C++ and Python.
- Familiar with AI/ML frameworks like TensorFlow and PyTorch.
- Familiar with LLM API's and frameworks (Langchain, Langgraph).
- Knowledgeable in cloud platforms (AWS, Azure, Google Cloud).
- Strong data visualization skills.

LANGUAGES

- Fluent in Arabic and English.
- Japanese: Level 3 certificate from the Japanese Embassy (Abu Dhabi), currently studying N4 Level Japanese.

PERSONAL TRAITS

- Dedicated.
- Team-oriented.
- Flexible.
- Friendly.
- Excellent communication and public speaking skills.
